

# ABOUT ISOA

Sitting at the intersection of U.S. Government and industry, The **International Stability Operations Association (ISOA)** is the leading organization uniquely focused on enhancing the growth and success of companies supporting international stability worldwide. ISOA members come from all over the globe and reflect the diversity of size, services and solutions that support stability operations. Industries include logistics, security, construction, risk management, medical support services, professional and technical services and much more. Over 70% of our members are small businesses.

## ISOA VALUE STREAMS

ISOA's programs and activities are laser focused on supporting our members' business growth through four major value streams.

**Networking  
& Business  
Development**

**Business  
Intelligence &  
Education**

**Advocacy &  
Agency  
Collaboration**

**Corporate  
Visibility**

ISOA holds four to five major international conferences annually hosting 300-500 attendees each. ISOA members also enjoy an active calendar of advocacy meetings, webinars, in-person networking gatherings, and special interest group meetings designed to have a positive impact on public policy, create new business partnerships, and keep members informed about upcoming contracting opportunities.
